Sir:

In response to the Office Action dated August 1, 2002, please amend the above-identified application as follows:

Below are Applicant's amendments in clean form, without markings to indicate the changes that have been made.

IN THE SPECIFICATION:

On page 16, please delete the first full paragraph and replace it with the following new paragraph:

The selector 105 is connected to four head address registers 93 to 99 in which the head addresses for the C, M, Y and K planes 111C to 111K are held. Upon receiving a color selection signal from the color selection counter 101, the selector 105 selects one of the four head address registers 93 to 99, and reads the head address from the selected head address register and outputs
